

Be safe when crossing the railway tracks, always remember:

- 🚧 Just like crossing the street -stop and look both ways before crossing train tracks. Listen for warning bells and watch for flashing lights. There could be a train coming from the other way.
- 🚧 When train is going by stand at least 5 meters or 16 feet (that's about 10 giant steps) back from the tracks when a train is passing.
- 🚧 Never try to get across the tracks if a train is coming.
- 🚧 Never crawl under the arms when they are in the down position
- 🚧 Always walk your bike across the tracks to make sure your tires don't get caught.
