

Community Services is looking for some assistance in the Crosswalk Safety Program

We ask for anyone wishing to make a commitment for the school year to contact our Community Services department to take part in keeping our children safe when going to school and returning home.

We are looking for a few individuals who would be will to work with Community Services and the Protective Services department to keep our children safe.

This would only take about 1 hour out of your day and we will provide training.

If you can even help out in being a spare that would be of great help.

Coverage will be required at the Corner of Gough and 10th and in front of Hugh Sutherland School on Hwy.581 at the crosswalk.

We need your help in making this program a success and be a part of a safe community.

Our kids are counting on us.

Thank you
