

Highway 2A:12 & 581:02 Paving Project

RECEIVED

Hwy 2A from North of Twp Rd 292 to the Town of Carstairs Hwy 581 from Hwy 2A to 600m East of Hwy 2A

Project Background

In 2015, Alberta Transportation (AT) identified the need for the pavement rehabilitation of Highway 2A starting north of Township Road 292 to the Town of Carstairs, and the adjacent 600 metres of Hwy 581 in the Town of Carstairs between Hwy 2A and Havenfield Drive. In January of 2017, a pavement contractor was awarded this project for construction in 2017.

This project will involve: 20,000 sq.m. of milling, 40,600 tonnes of asphalt, 2,500 metres of crack repair and auxiliary items.

Residents of the area as well as travelers can expect a newly paved highway open to traffic near the start of summer.

What to Expect

The project will include approximately 11 km of paving on Hwy 2A and about 600 metres of paving on Hwy 581. You will also see crews completing crack repairs, pavement milling, localized areas of side slope improvements, roadside barriers and other work as required.

As with any construction project, travelers will experience delays due to speed reductions and lane closures. This paving project is anticipated to take 5 weeks to complete beginning mid May.

Please note that truck hauling and paving operations are expected to occur during daylight hours, 7 days a week until project completion. We ask for local residents under-

standing as they may notice increased levels of noise and dust during these operations.

Paving through the Town of Carstairs is expected to cause some traffic disruptions and temporary closures of residential and business accesses. Please obey all construction signage and flag persons.

Paving in the Town of Carstairs may occur during regular school hours. We will be scheduling work to minimize the disruption of traffic during school drop off and pick-up times. Additional supervision shall be provided along the route between town and the school when crews are actively working.

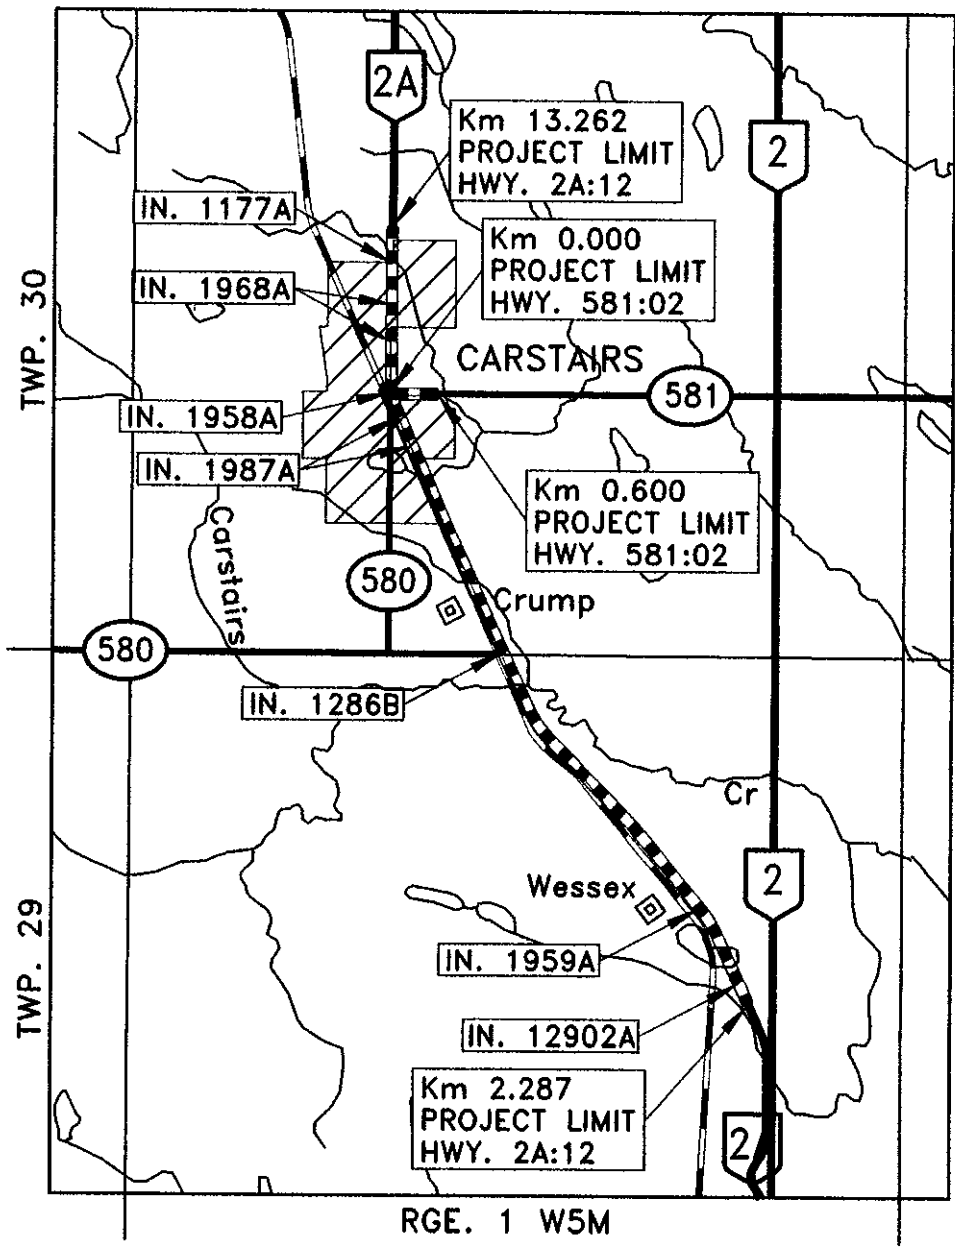

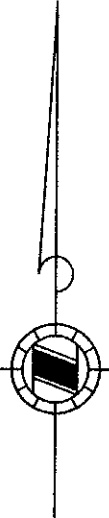

Motorists can check for updated traffic and construction information at 511.Alberta.ca or by calling 5-1-1
